

# HN580 CARBIDE SQUARE UNEQUALLY HELIX ANGLE U-GROOVE MILLING CUTTER 4FLUTES(38°/41°)

## Advantages

- Enhance chip removal effect
- Reduce vibration and noise
- Improve cutting efficiency
- Improve processing surface quality

## Application

- general processing of steel and stainless steel  
mainly processing materials within HRC45

Flute unequally Spaced

Helix angle: 38°/41°

Coating: ALCRN high-quality composite coating

*The ultimate cost-effectiveness!*
